automatically handles all of the patches, back-ups, and upgrades.

Anywhere access

Users can synchronize their mailboxes with iOS, Android, Amazon Fire, and Windows Phone devices. If you are migrating from an on-premises Microsoft Exchange server, your users' mobile devices can automatically connect to Amazon WorkMail with no end-user reconfiguration required, and no change in user experience. A feature-rich web client is also available for

Active directory integration

Amazon WorkMail securely integrates with your existing Microsoft Active Directory so that users can access their mailbox using their existing credentials. This also makes it easy to manage users and groups with familiar systems management tools, such as Active Directory Users and Computers.

Low cost

Amazon WorkMail features simple, low, monthly per-user pricing and costs \$4 per user per month which includes 50GB of storage per user.
